Modern Architecture Being the Kahn Lectures For 1930 by

Modern architecture is the term used to describe the simplified, unornamented building styles of the late 19th and the 20th centuries. These building styles are also known by other labels, like International Style, Neue Sachlichkeit or New Objectivity, and Functionalism.

What is Modern Architecture? (with pictures) - wisegeek.com

"Modern Architecture" is a landmark text - the first book in which America's greatest architect put forth the principles of a fundamentally new, organic architecture that would reject the trappings of historical styles while avoiding the geometric abstraction of the machine aesthetic advocated by contemporary European modernists. One of the most important documents in the development of modern architecture and the career of Frank Lloyd Wright, "Modern Architecture" is a provocative and ...

9780691129372 - Modern Architecture Being the Kahn

Apart from architecture design, built environment also has profound effects on public-health. Planning decisions made can affect housing design, parks, location of stores and schools, as well as factors such as traffic density and air and water quality. These characteristics, in turn, affect the well being which is the physical and psychological health for people of all ages.

Relationship Between Architecture and Wellness - UK Essays

Modernism is the single most important new style or philosophy of architecture and design of the 20th century, associated with an analytical approach to the function of buildings, a strictly rational use of (often new) materials, an openness to structural innovation and the elimination of ornament. It has also been called International Modern or International Style, after an exhibition of ...
