Questions, tasks and activities to support assessment

Self-determination theory (SDT) is a macro theory of human motivation and personality that concerns people's inherent growth tendencies and innate psychological needs.

Self-determination theory - Wikipedia

Neil Baker works with health care organizations to enhance leadership and team impact. His signature contribution to this field is his adept way of using any work situation, even the most complex and difficult, as an opportunity to achieve immediate impact on the quality of work relationships.

Self-Determination Theory (SDT), developed by Deci and Ryan, identifies autonomy, relatedness, and competence as crucial elements of human motivation.

What is Self-Determination Theory? Definition and Examples

Self-efficacy is an individual's belief in his or her innate ability to achieve goals. Albert Bandura defines it as a personal judgement of "how well one can execute courses of action required to deal with prospective situations". Expectations of self-efficacy determine whether an individual will be able to exhibit coping behavior and how long ...
